Product Description and Print Line

CenFlo HDPE 3608 Polyethylene Pipe

Material:
All CenFlo HDPE 3608 pipe is manufactured from virgin high density polyethylene resin with the cell classification of 345464C per ASTM D 2239 or ASTM D 2737. The material contains a minimum of 2% Carbon Black as a UV inhibitor to accommodate outside storage.

Print Line:
All CenFlo HDPE 3608 is permanently indent printed with white print stating the following:
1. Identification of Centennial Plastics as the manufacturer.
2. The appropriate SDR, SIDR and/or CTS designation and nominal diameter.
3. Product trade name.
4. All relevant ASTM standards to which CenFlo is manufactured.
5. Relevant NSF and AWWA standards.
6. Manufacturing dates using the Julian calendar.
7. Incremental footage marking every two feet.
8. Design temperature rating.
10. Identification of PE 3608 high density resin.

Recommended Usage:
CenFlo HDPE 3608 is recommended for use as the piping material for all irrigation applications.

Connections:
CenFlo HDPE 3608 is manufactured to accommodate insert fittings and/or CTS compression fittings.

Handling:
Any handling of the pipe shall avoid contact with sharp edged objects. If stored outside for long periods of time, the pipe should be covered with a UV resistant tarp or cover. If the wall of the pipe is penetrated by more than 10% of its thickness, the damaged pipe should be cut out, disposed of and replaced.

Centennial Plastics is an ISO 9001 certified company.
