Drip Tube

- Flexible polyethylene pipe specifically designed for micro-irrigation
- Produced from virgin Linear Low-Density Polyethylene
- Outstanding environmental stress-cracking resistance
- Highest possible UV resistance in the market today

Centennial Drip Tubing is manufactured using state of the art equipment. The raw materials used in the manufacturing process meet or exceed ASTM D 1248 and ASTM D 3350 standards. The virgin Linear Low Density Raw Material is specifically designed for the micro irrigation market and will withstand the rigors of the environment and stress crack situations common to the industry.

Centennial Plastics follows Proposition 65 (also known as the Safe Drinking Water and Toxic Enforcement Act of 1986). Our products in their finished form, do not require a California Proposition 65 warning label.

Centennial Plastics is an ISO 9001 Certified Company.
